NOTICE. — The classification adopted in the SECOND SERIES of the INDEX MEDICUS is based as far as possible upon the latest accepted views in medicine. Nevertheless it is to be remembered that the bibliographer has to deal with all the matter which comes to his hand, some of which may be unassignable under a strict classification.

Letters relating to the editorial department should be addressed:

NOTICE.—The classification adopted in the SECOND SERIES of the INDEX MEDICUS is based as far as possible upon the latest accepted views in medicine. Nevertheless it is to be remembered that the bibliographer has to deal with all the matter which comes to his hand, some of which may be unassignable under a strict classification.

Letters relating to the editorial department should be addressed:

NOTICE.—The classification adopted in the SECOND SERIES of the INDEX MEDICUS is based as far as possible upon the latest accepted views in medicine. Nevertheless it is to be remembered that the bibliographer has to deal with all the matter which comes to his hand, some of which may be unassignable under a strict classification.

Letters relating to the editorial department should be addressed:
